**Subject:** Water audits for excess water loss systems as ordered in order# 2013-77 docket# 2007-286-WS

244308

Good afternoon, Nanette. I hope everything is going well with you since we last saw each other.

I am inquiring about the water audits that were required to be submitted by Utilities Services of South Carolina (Utilities, Inc. subsidiary) for their water systems that had water loss in excess of 10%. In docket# 2007-286-WS, order# 2013-77 (order 5 on page 15) the commission required that USSC submit water audits to it and ORS no later than 90 days after their receipt of the order. The order was published on 2/12/2013 and I calculate that 90 days would have been 5/13/2013.

If you have received those audits, would you please send a copy to Dr. Hendrix (CCed on this e-mail) and me? If you have not received them, has a request been made by USSC for additional time as stated in the order? I am assuming the answer is no since nothing has been posted to the docket since the order was issued.

I have also CCed the PSC on this e-mail.

Thanks so much for your time!
